## Background

Mr. Kyle holds a B.S. degree in Architectural Engineering, and an M.S. degree in Civil Engineering. He is a licensed professional engineer in Florida, Iowa, Kansas, Missouri, Nebraska, North Carolina, North Dakota, and South Dakota with more than 14 years of experience.

Mr. Kyle's expertise is building structural engineering with an emphasis on design, construction, and evaluation of healthcare, commercial buildings, central utility plants and federal projects.

Mr. Kyle's areas of expertise include: building code analysis; building structural design; and analysis of cast-in-place concrete, steel, masonry, precast, and wood-framed structures. He has prepared and professionally sealed contract documents, which include general note, special inspection requirements, drawings, and specifications. Mr. Kyle has provided construction administration services, which include shop drawing review, addendum and change order preparation of the construction documents, cost change reviews, and answered contractor requests for information (RFIs). He also performed site inspections and prepared reports to monitor quality control.

Mr. Kyle has knowledge in strength of materials, architectural components, soil mechanics, and foundation design; both deep and shallow. Mr. Kyle has extensive design experience on a variety of projects in budget, size, and scope. His project experience has ranged from new construction to renovation, and expansion of existing facilities.
