Background

Ms. Druck earned a B.S. degree in Civil Engineering and an M.S. in Structural Engineering. She is a licensed professional engineer in the States of New York and New Jersey.

Ms. Druck has experience in all phases of design and construction for a wide range of projects. Design and evaluation experience of new structures and modification of existing structures including residential properties, tenant fit-out, laboratory design, warehouse conversions, landmark-designated properties in New York City, performance spaces, and elevated landscape support to name a few.

Ms. Druck's areas of expertise include managing the condition assessment of existing structures and the corresponding repair and reinforcing design and details. Ms. Druck's design experience specifically includes the structural design of steel, wood, heavy timber, and masonry buildings.
