## Background

Ms. Furr holds a B.S. degree in Civil Engineering with a Structural Concentration and a Mathematics Minor and an M.S. degree in Civil Engineering with a Structural Concentration. She has over 19 years of practice in the field of structural/civil engineering and construction and has been registered for 17 years as a licensed professional engineer. She is licensed in Kentucky, North Carolina, and Tennessee.

Ms. Furr's experience includes full structural design, consultation, and structural and seismic assessment services on both commercial and private structures up to 10 stories, and residential wood frame structures of all sizes. Material experience encompasses knowledge of concrete, masonry, steel, wood, and light-gauge metal construction materials.

## Education and Certifications

- Civil Engineering, M.S.: University of Memphis
- Civil Engineering, B.S.: University of Memphis
