Background

Along with a B.S. in Biomedical Engineering, Mr. Haney is certified by the Accreditation Commission for Traffic Accident Reconstructionist (ACTAR #1936) and holds a number of certifications in accident reconstruction, airbag control module downloads, and analysis and commercial vehicle braking systems.

He has over 11 years in areas of design, engineering, failure analysis, and accident reconstruction with an emphasis on commercial vehicle accident reconstruction.

Mr. Haney has performed accident reconstructions on thousands of collisions involving commercial tractors and trailers, passenger cars, pedestrians, motorcycles and bicycles, trains, and large multi-vehicle collisions. He has reconstructed collisions in most states of the continental U.S. and Alaska.

Education and Certifications

- Biomedical Engineering, B.S.: University of Central Oklahoma
- Traffic Accident Reconstructionist: Accreditation Commission for Traffic Accident Reconstructionist (ACTAR #1936)
