Background

Mr. Sole has 17 years of experience as a certified police officer in Oklahoma and over 10 years of technical training and experience in the field of accident investigation and reconstruction. Mr. Sole is a fully Accredited Traffic Accident Reconstructionist with the Accreditation Commission for Traffic Accident Reconstruction (ACTAR). During his career in law enforcement, Sole's role has consisted of patrol officer, traffic collision investigator, crime scene detective, and motorcycle officer. He has been involved in the investigation of thousands of traffic collisions throughout his career; ranging from minor property damage to pedestrian, bicycle, multi-vehicle, and fatality collisions.

Mr. Sole is certified by the State of Oklahoma as a police instructor and has taught police officers in the field of accident investigation, crime scene processing, and both police and civilian motorcycle operation. Mr. Sole has given trial testimony in both civil and criminal cases.

Mr. Sole has provided consulting for evaluation of vehicular collisions for the past 10 years. Mr. Sole provides scene physical evidence evaluation, vehicle photography, vehicle scale measuring, downloading of airbag control modules, downloading of engine control modules, testing of commercial vehicle brake systems, interviewing investigating officers, scale diagrams and dynamics of a collision.
