Background

Mr. Li holds a B.S. degree in Environmental Science, a B.S. degree in Environmental Engineering and an M.S. degree in Environmental Science and Engineering.

He is a Certified Industrial Hygienist (CIH), a Certified Safety Professional (CSP), a New York State Asbestos Inspector/Project Monitor/Project Designer, a New York City Dept. of Environmental Protection Certified Asbestos Investigator, a New York State Dept. of Labor Certified Mold Assessor, a New Jersey State Dept. of Health Lead Inspector/Risk Assessor, a U.S. EPA New York State Lead Risk Assessor and an Engineer in Training (EIT).

Mr. Li has approximately 10 years of experience in environmental, health, safety, and emergency response. He has conducted and completed investigations related to hazardous building materials investigations (e.g. asbestos, lead containing paint, PCB containing materials etc.), plus Indoor Air Quality (IAQ) investigations, OSHA Compliance Personal Air Monitoring for airborne heavy metals (such as lead, arsenic, cadmium), Confined Space Entry, developing/reviewing Job Hazard Analysis (JHA) and Health & Safety Plan (HASP), as well as risk assessment for lead in residential homes.

Mr. Li has also been involved in many projects involving hazardous materials remediation oversight.
